September 2014

Dear Colleagues: I wanted to pass along several occupational health and safety resources that you may not have seen:

URL: http://lohp.org/conferenceregistration/

2) The latest “Year in U.S. Occupational Health & Safety, Fall 2013-Summer 2014” report published by Celeste Monforton and Liz Borkowski. The section on state plans includes information on DOSH.

3) Information from the every four years “World Congress on Safety and Health at Work,” held in August in Germany with 141 countries participating.

4) ILO sponsored slide shows of OHS issues from around the world.

5) the European Union’s OSHA (EU-OSHA) has launched a “OSHwiki” website to share information and materials on OHS world wide.

Earlier I sent out the information on the report “Winning Safer Workplaces,” but here it is again for those interested in new ideas, or newly conceived ideas, for improving workplace H&S in the US. The URL is:
http://www.progressivereform.org/articles/Winning_Safer_Workplaces_CPRsm_1404.pdf

Best to one and all,
Garrett Brown
