<b>Field-Available inspector FTEs</b>	159 CSHOs			

**Notes:**

- Of the 159 filled CSHO positions, there are four “Retired Annuitant” (RA) rehired staff working as CSHOs in District Offices. RA positions are temporary, part-time positions and RAs are limited to 960 hours per fiscal year (half time). At the same time, there are 18 Senior Safety Engineer (SSE) positions in District Offices. These SSEs are to spend 50% of their time on District Office administrative matters and 50% of their time conducting compliance inspections. Therefore, the number of **CSHO FTEs available for field inspections on October 1, 2024, is 159 CSHOs.**
- There are **116 vacant CSHO positions.** DOSH has a **vacancy rate for CSHO positions of 43%** (116 vacancies in 268 positions).
- The California Employment Development Department (EDD) reported the California civilian labor force in October 2024 as 19,383,300 workers. The 159 FTE CSHO positions represents an inspector to worker ratio of 1 inspector to 121,907 workers. **Cal/OSHA’s inspector to worker ratio of 1 inspector to 120,000 workers is much less health protective than Washington State’s ratio of 1 to 26,000, and Oregon’s ratio of 1 to 24,000.** [These non-California ratios were cited in the April 2024 “Death on the Job” report.]
- **Fourteen enforcement District Offices have CSHO vacancy rates at or above 40%** -- PSM Refinery unit (80%), Santa Barbara (80%), Riverside (67%), San Francisco (67%), San Bernardino (64%), Bakersfield (63%), PSM Non-Refinery unit (60%), Fremont (55%), Santa Ana (55%), Oakland (45%), American Canyon (45%), Sacramento (45%), Long Beach (40%), and Monrovia (40%).
- **The new Agricultural Safety unit has zero CSHOs** and only five designated position for the four slated enforcement offices (Bakersfield, El Centro, Lodi, and Salinas), plus about 10 satellite offices throughout the state.
- There are **six District Offices without a District Manager** in Los Angeles, Long Beach, Modesto, Santa Barbara, Van Nuys, and the San Bernardino Mining & Tunneling office. In these District Offices, a CSHO must serve as Acting District

Manager, so those offices effectively have one additional CSHO vacancy as the ADMs do not conduct field inspections.

- **Two District Offices have zero clerical staff** – Los Angeles and Santa Barbara – which means CSHOs must spend time doing administrative work.
- **Three regions are without a manager:** Region III (San Diego), Region VIII (Fresno), and the Agricultural Safety unit. Overall, **several regions have vacancy rates at or above 50%:** Region I/San Francisco (50%), Region III/San Diego (53%), Region V/Mining & Tunneling (50%), and Region VII/PSM (64%).
- The DOSH Org Chart indicates that **10 field CSHOs are “bilingual.”** Region II (Northern California and Central Valley) has one bilingual inspector, and Region VIII (Central Valley and Central Coast) has two bilingual CSHOs in the field. It is estimated that 5 million of the state’s 19 million worker labor force speak languages other than English, with many monolingual in their native tongue.
- **In 1980, Federal OSHA had a ratio of 14.8 CSHOs per million workers. Forty-five years later, Cal/OSHA has a ratio of 8.2 CSHOs per million workers.**
- The 159 field-available CSHO positions are also below the number of California Fish & Game Wardens (approximately 250) currently working in the field.
- The 159 field-available CSHO positions also include two CSHOs who are classified as in training (SET, TAU, T&D, Junior SE) and who technically do not conduct independent inspections alone.
